

RUMEVITE® 30% UREA + P BLOCK

An 86% protein (30% urea) and phosphorus block for cattle grazing high volumes of dry pasture or stubble.

KEY FEATURES

- High urea to supplement mature, fibrous, feed.
- Contains balanced levels of phosphorus plus macro and trace minerals.
- “Hard” consistency to assist regulating intake.
- Weather resistant block.

FEEDING ADVICE

- Usual intake 50-200 grams/head/day.

BLOCK SIZE	CATTLE (PER BLOCK)	DAYS (PER BLOCK)
20kg	20	7-14
40kg	20	14-21
100kg	50	14-21

If intakes exceed 200 grams/head/day contact Ridley Sales and Support on **1300 666 657**.

- Inherent mineral deficiency (especially phosphorus) can lead to “craving” and excessive intakes when supplements are introduced. Under these circumstances it is recommended that stock be supplemented with a hard, high mineral block (e.g. Rumevite Maxi-Beef Block) during the green season.
- This product contains urea.
