

RUMEVITE® BEEF WEANER PELLETS

A pelleted grain ration for supplementary beef weaners or lot feeding cattle weighing 120-300kg live weight.

KEY FEATURES

- Palatable grain ration presented as a pellet.
- Contains bypass protein.
- Balanced levels of calcium, phosphorus, trace minerals and vitamins.
- Contains Rumensin® to improve growth rates and feed conversion.

FEEDING ADVICE

- Suitable for feeding to cattle weighing greater than 120kg live body weight.
- Draft livestock into groups of similar size and age.
- Ensure that roughage (dry pasture or palatable hay) is always palatable.
- Start feeding at 0.5kg/100kg live body weight/day and gradually increase over 21 days up to the desired rate achieved or up to 2.0kg/100kg live body weight/day.
- Feed from troughs or self-feeders.
- Do not allow dogs, horses or other equines access to this feed. Ingestion of Rumensin® (monensin) may be fatal in these horses.
