

RUMEVITE® MAXI-BEEF BLOCK

A weather-resistant molasses block with 8% phosphorus for phosphorus deficient country.

KEY FEATURES

- Palatable, molasses block.
- Very hard texture for high weather resistance-suited to extreme conditions.
- For phosphorus deficient country.
- Useful for areas of higher ground that may be isolated during the wet season.

FEEDING ADVICE

- Usual intake 80-150 grams/head/day.

BLOCK SIZE	CATTLE (PER BLOCK)	DAYS (PER BLOCK)
40kg	20	14 - 21
100kg	50	14 - 21

If intakes exceed 150 grams/head/day, cattle can be changed over to Rumevite 30% Urea + P Block.

- Ensure a plentiful supply of roughage is available when feeding this product.
- Locate away from watering points to avoid over consumption and encourage stock to graze out, utilising available paddock feed.
- This product contains urea. It may be necessary to take precautions with feeding certain stock.
