

# RUMEVITE® SSS BRIGALOW LICK

A 40% protein and mineral loose lick for cattle grazing high volumes of maturing and dry pasture in extensive country.

## KEY FEATURES

- Palatable lick containing high levels of vegetable protein meal.
- Low salt to encourage intake on Brigalow soils.
- Can be used as a production lick early in the dry season.

## FEEDING ADVICE

- Usual intake 100-500 grams/head/day.
- As consumption increase beyond target intakes, cattle can be changed to Rumevite SSS Dry Season 48 lick.
- Ensure a plentiful supply of maturing or dry pasture is available when feeding this product.
- Pour SSS Brigalow lick into troughs and allow cattle free access.
- Troughs should be well drained and covered to protect from the weather. Do not allow the product to become wet.
- Locate troughs a minimum of 30 metres from watering points. Once stock are consuming the loose lick, if possible move troughs out further from watering points. This will aid in avoiding over consumption and encourage stock to graze out, utilising available paddock feed.

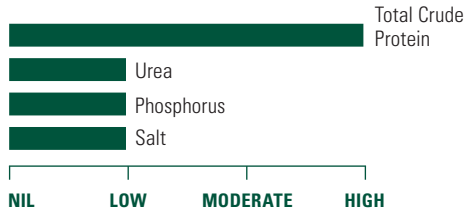

## CLASS OF STOCK

## FEED STYLE

LOOSE LICK 25kg

## PRODUCT CHARACTERISTICS

ANALYSIS (AS-FED)	
Total Crude Protein and Equivalent Crude Protein (minimum)	40%
Crude Protein (minimum)	19%
Equivalent. Crude Protein (minimum)	21%
Urea	7.3%
Sulphate of Ammonia	0.3%
Crude Fat (minimum)	0.1%
Crude Fibre (maximum)	10.%
Salt (maximum added)	10%
