

RUMEVITE®

SSS DRY SEASON 48 LICK

A 48% protein (10% urea) and mineral loose lick for cattle grazing high volumes of maturing and dry pasture in extensive country.

KEY FEATURES

- Often used as an introductory lick.
- Contains high levels of minerals to satisfy cravings prior to the introduction of higher urea lick.
- A suitable option for weaners grazing mature feed late in the dry season.

FEEDING ADVICE

- Usual intake 100-300 grams/head/day.
- As consumption increases, cattle can be charged over to Rumevite SSS Dry Season 99 Lick into troughs and allow cattle free access.
- Troughs should be well drained and covered to protect from the weather. Do not allow the product to become wet.
- This product contains urea.
