

MAXI BREED

A palatable molasses block containing 10% urea and high levels of phosphorus for weaner, growing and breeding cattle

DIRECTIONS FOR USE

- If intakes consistently exceed 300 grams/head/day, cattle can be changed over to Rumevite® 30% Urea+P/LNT® Uramol.
- Always supply adequate clean drinking water. Ensure a plentiful supply of dry pasture or stubble is available when feeding this product.
- Place blocks on high, well drained ground. Locate blocks a minimum of 30 metres from watering points. Once stock are consuming the blocks, move them further out from watering points. This will aid in avoiding over consumption and encourage stock to graze out, utilising available paddock feed.

WARNINGS

WARNING: This product contains urea, which can be toxic if taken in excessive quantities or too quickly. Urea based products should only be fed as part of a complete supplementation program as urea can cause death to stock which have not been gradually exposed to it, or if intakes are excessive.

Do not feed to starving, thirsty or salt deficient stock.

Do not feed to animals other than cattle. Do not feed to equines - this product may be fatal if fed to horses or other equids.

WARNING: This feed has been formulated specifically for animals as described on this label and should not be used for any other species of animals. Unsuitable for human consumption.

The manufacturer accepts no responsibility if this feed is used in quantities, conditions, or in any way other than in accordance with the manufacturer's recommendations.

THIS PRODUCT DOES NOT CONTAIN RESTRICTED ANIMAL MATERIAL

ANALYSIS (AS-FED)

Total Crude Protein (Min)	33%
Crude Protein (Min)	4.3%
Equiv. Crude Protein (Min)	28.7%
Urea (Max)	10%
Crude Fat (Max)	1.2%
Crude Fibre (Max)	1.2%
Salt [NaCl] (Added Max)	8.0%
Calcium [Ca] (Min)	11%
Phosphorus [P] (Min)	5.0%
Magnesium [Mg] (Min)	3.5%
Sulphur [S] (Min)	0.5%
Zinc [Zn] (Min)	500mg
Copper [Cu] (Added Min)	300mg
Selenium [Se] (Added Min)	2.7mg
Cobalt [Co] (Added Max)	30mg
Iodine [I] (Added Max)	30mg

STORAGE

- For optimum quality and shelf-life, product should be stored below 30°C and off the floor in a cool, dry, well ventilated area protected from direct sunlight.

PRESENTATION

- 20 kg, 40 kg and 100 kg
