

SSS WEANER WITH RUMENSIN®

A palatable protein and mineral loose lick
for weaner cattle grazing pasture.

KEY FEATURES

- Palatable loose lick containing low levels of urea.
- Based upon high quality vegetable protein meal.
- Contains Rumensin® to improve growth rates and feed conversion efficiency in cattle and as in the prevention of coccidiosis caused by *Elimeria zureonii* and *Eimeria bovis*.

RECOMMENDED INTAKES

- Usual intake 100-300 grams/head/day.
- If intakes consistently exceed recommended rates, cattle can be changed over to Rumevite® SSS Dry Season 48 Lick.

FEEDING DIRECTIONS

- Ensure a plentiful supply of pasture or hay is available when feeding this product.
- Pour Rumevite® SSS Weaner With Rumensin® into troughs and allow cattle free access.
- Troughs should be well drained and covered to protect from the weather. DO NOT allow the product to become wet.
- To avoid over consumption, locate troughs a minimum of 30 metres from watering points. Once stock are consuming the loose lick, if possible move troughs further out from watering points to encourage grazing out and utilisation of available paddock feed.

SAFETY & OTHER INFORMATION

- This product contains urea, which can be toxic if taken in excessive quantities or too quickly. Urea based products should only be fed as part of a complete supplementation program as urea can cause death to stock which have not been gradually exposed to it, or if intakes are excessive.
- This product contains Monensin (as Rumensin® 200). Rumensin® is a registered trademark of Elanco Animal Health.
- DO NOT allow dogs, horses or other equines access to this feed. Ingestion of Rumensin® (Monensin) may be fatal in these species.
- Also Available as Rumevite® SSS Weaner No Salt with Rumensin.®
